ATTACHMENT TO ADVISORY ACTION

Item 2.

A. The after-final amendment filed 09/09/03 is a non-compliant amendment under 37 C.F.R 1.121 because of the incorrect status of claims 73-79 indicated under the listing of claims. Applicants have requested cancellation of claims 73-79 at the top of page 3 of the after-final amendment, yet list these as 'withdrawn' claims, as opposed to 'canceled' claims under the listing of claims.

B. The after-final amendment filed 09/09/03 is a non-compliant amendment under 37 C.F.R 1.121 because several additions or deletions made, for example, to claims 80, 89, 90 and 93 have not been identified or marked by underlining or parentheses, as required. For example, line 4 and the last line of claim 80 and line 2 of claims 89, 90 and 93, as amended, now recite 'conjugates' without identifying the change made to this limitation. Additionally, the previous limitation: 'comprising a polysaccharide component and a protein or protein fragment component' has been deleted from claim 80, as now amended. However, this deletion is not indicated to the Office by specific markings or parentheses.

The new amendments made to claims 80, 89, 90 and 93 raise new issues and would require further consideration and/or new search.

C. There is lack of action with regard to the required submission of a terminal disclaimer to overcome the rejection of record of claims 80, 81 and 83-93 under the judicially created doctrine of obviousness type double patenting over the US patent 5,866,135.

September, 2003
